Please create a database named practice_assignment and create a table with name as Employee_Details below in practice_assignment database with below requirements.

Column Names	Data type	Constraint
Emp_ID	int(5)	Primary Key
Emp_Name	varchar(255)	Not Null
BU	varchar(255)	
Project	varchar(255)	
Salary	bigint(10)	
Exp	int(2)	check(Exp>0)

Insert data as below:

Emp_ID	Emp_Name	BU	Project	Salary	Exp
1	Tim	XYZ	Telstra	1000	2
2	Jim	LMN	Aetna	2000	4
3	Kim	ABC	Walmart	3000	1
4	Lim	ABC	Dmart	4000	5
5	Rohan	LMN	All State	5000	3
6	Rahul	LMN	All State	4000	4
7	Rohan	DEF	Reliance	3000	3

Questions

1. Rename the column BU as Business_Unit.

2. Add a new column named Location with datatype as varchar(255).

3. Interchange the position of Exp and Project.

4. Update the Project and Salary to Aetna and 5000 for Rahul.

5. Delete 1st,3rd and 5th rows.
